EDUCATION

Bachelor of Business Administration
in Finance with a Real Estate
Concentration | Texas Tech University

Davis Willoughby is a Vice President at Younger Partners and specializes in locating entitled multifamily, industrial, single-family, and mixed-use land tracts for both buyers and sellers within the Dallas-Fort Worth area. Beyond the DFW Metroplex, Davis also focuses on rural acreage in the path of growth, offering lucrative investment opportunities, catering to 1031 exchanges, facilitating large-scale developments for master-planned communities.

Davis's journey into real estate began while pursuing his finance degree at Texas Tech University. His dedication and passion for the field led him to join Younger Partners in 2021, where he rapidly emerged as a vital contributor to the firm's renowned land team. Davis's exceptional organizational skills and adept interpersonal abilities have empowered him to successfully sell and exclusively list substantial acreage for a diverse clientele, including landowners, investment syndicates/partnerships, and developers.

Prior to Younger Partners, Davis gained invaluable experience during his college years working as an intern at Transwestern in downtown Dallas.
